

Texture Heaven

24bit IFF Texture Collection

Asimware Innovations is proud to present **Texture Heaven**, a CD-ROM disc crammed full of 24bit colour IFF Textures and Images. Included are:

- 245 Woods
- 59 Abstract Designs
- 18 Wilderness Scenery
- 53 Marbles
- 8 Tiles
- 135 Symbols

All images are 768x480 pixels, in full 24bit colour and stored in the *IFF format*! 8-bit colour preview images and thumbnail previews are included for all images. 135 Symbols, in black and white, round out this disc.

Texture Heaven is perfect for 3D Raytracing, MultiMedia and Video applications.

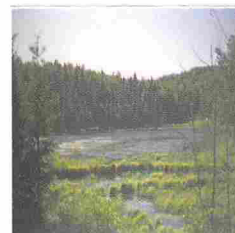

Wood

Contained on the **Texture Heaven** CD-ROM disc are 245 full colour wood textures. Expect to find hardwoods, softwoods, and even exotic woods in this collection!

Marble

You will find 53 different Marble images in **Texture Heaven**. Since the images are stored in the Amiga IFF format, they are usable directly off the disc -- with no conversion!

Scenery

18 Wilderness Scenery images are included in **Texture Heaven**. Use them to spruce up Video Titling, MultiMedia presentations, or in any situation where a solid backdrop is too bland.

...plus so much more!!!

- Texture Heaven is usable with most CD-ROM equipped systems
- Mastered to the ISO 9660 standard
- Suggested retail price: \$89.00 (U.S. Funds)
\$106.80 (Canadian Funds)
